

**Conservation Commission  
Minutes  
July 17, 2009**

Attendees:

Jo Schumann

Ellen Winchester

Brief meeting.

Jo: Ronnie made a suggestion to save rare plants at new construction sites.

Jo: Richard Wenzel and I prepared a tv show on the Phippsburg cable channel on japanese knotweed.

Jo: I posted our work on CC-related websites also sent to MEACC.

Jo: We need signs on Center Pond at each place where boats have been in to inspect for Milfoil.

**TODO: Signage. Will bring up at next meeting. IFW may have ready made signs.**

Ellen: geocaching. Spoke with a person in Phippsburg who has been active in geocaching. She gave me a lot of information over the phone. I started researching geocaching on the website she recommended. Will try to get started on a geocache on the town land, weather permitting.

**TODO: Research existing geocaches in Phippsburg registered on the official geocaching site, then begin preparing geocache route on Town Land.**
